

Feedback Report Part-2

1. What tools are you using for making the project for example: eclipse, jframe, etc?

We have used Eclipse for the implementation of our project.

2. Have you made any changes to the data structure you have selected? If yes then why?

We were trying to use linked lists for the history tracking but then finalized stack because it was better and efficient to be implemented.

3. What is the progress of your project? What all have you accomplished in these 2 weeks?

An array of data structures were thought to be implemented. We considered various structures like heaps, circular queues, stacks for history and many more.

4. Did you face any problems in these 15 days and were you able to resolve them?

Choosing and finalizing data structures was a big task but after sufficient discussion we finalized it.

5. Did you make any major changes in the Project?

No major changes made .
